TRANSMISSION HAT

Interchangeable Ergo Plates

Fine-tune your feet for maximum power, control and comfort

(PAT. PENDING)

Extendable, Locking Universal Linkage

Low friction extendable Universal Linkage that won't come apart

(US PAT. N05905218)

Heel Extension Plate

For improved stability and comfort while resting and playing heel-down

Adjustable Shoe Wing

Side pieces that will fit to your foot perfectly, assisting the action between bass drum and hi-hat operation

New "H" Shape Ultra Solid Frame System

Reinforced "H" shape solid metal frame ensures the pedal will perform as new, for years and years of hard playing and hard knocks.

(PAT. PENDING)

JNSM7500

CONSOLIDATED HIHAT / BASS PEDAL

TRANSMISSION HAT

Transmission System

The heart of the Transmission Hat, the unique ability to switch one pedal between double bass drum and hi-hat operation is what puts you three steps ahead

JNSM7000

CONSOLIDATED HIHAT / BASS PEDAL
(HIHAT MODE ONLY)

Patented Hi-Hat Clutch

Featuring our heavy duty Cymbal Accentuators for longer life, greater control and enhanced sustain

Tri-Nodal Cymbal Seat

Fully adjustable for maximum angle and pressure control, minimal contact and enhanced resonance

(US PAT. NO 5918300)

Tension Indicator System

10-step tension adjustment with easy to read indicator and oversized knob for accurate setting

Rotating Leg Assembly

Mapex P.A.S.™ Hi-Hat stands feature a 360 rotating leg assembly, allowing closer position of the footboards in multipedal setups
